

WRC
WATER RESOURCES COMMISSIONER
Jim Nash

February 3, 2020

Dear Resident/Property Owner:

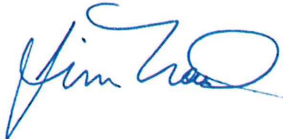

My office, in cooperation with the City of Pontiac, will soon begin construction of the Walton Boulevard (Joslyn to Giddings) Water Main Improvements project near your home or place of business. Construction is expected to start in February 2020 with final restoration by early fall of 2020. Work will be contained within the Walton Boulevard road right of way between Joslyn and Giddings and to the temporary and permanent easements you may have provided for the project. Work also will be completed on Giddings Road and along Joslyn Road just north of Walton Boulevard. There will be temporary lane closures in the area during construction of the project. The contractor for the project is Bricco Excavating Company, LLC of Oak Park, Michigan. They will restore the work area immediately following construction.

This project will improve the water distribution system in the area and ensure the system's future reliability. The project primarily consists of the installation of a new water main and new fire hydrants and valves.

Because this is an Oakland County Water Resources Commissioner project, please contact my Construction Inspection office at 248-858-1105 for additional information or if you have questions. By calling this number directly, you will be ensured of a timely response to any construction-related issues.

In closing, I want to thank you in advance for your patience and cooperation and for bearing with us during the construction period.

Sincerely,

Jim Nash

c: Mr. Nick Banchemo, Bricco Excavating Company, LLC
Mr. Brad Shepler, P.E., Associate, Hubbell, Roth & Clark, Inc.
Mr. Jack Nagle, P.E., Staff Engineer, Hubbell, Roth & Clark, Inc.
Mr. Jack Cady, Engineering Supervisor, City of Pontiac Department of Public Works/Engineering
